Youth sessions – Parent & Caseworker participation

We encourage and welcome adults who care for or live with the young person to also attend, so we can share techniques to help return their young person to a response vs. a reaction state whilst at home. We provide an evaluation on each student.

If parents come with the caseworker for the **student or youth workshops** and are observing from the grandstand we are happy to explain the techniques and document them individually. We ask for those attending to please keep noise to a minimum and to encourage your student whilst participating.

If the parents are enrolled in the **family workshop**, they participate in the techniques and arena groundwork workshop and are mentioned in the workbooks.

CANCELLATION POLICY

There is a **minimum 48h** cancellation or reschedule policy.

If the cancellation is within 24 hours, an administration fee of \$50 will be charged.

Should the cancellation or no show take place on the **same day**, the session cannot be refunded.
